Lightning Round Talks

Join us for the lightning round presentations! We are delighted to present an opportunity for conference attendees to give a fast-paced short presentation on a topic that is complementary to the many themes surrounding the VIVO Conference. These talks provide an excellent forum to talk about some preliminary results, share your experiences, or present an exciting side project or new area of interest. The shortened format makes this a great opportunity for novice and expert speakers, alike.

The talks will be 3-4 minutes in length and all speakers will be able to show slides during their presentations. We will strictly monitor time so that we can stay on schedule and allow all interested people an opportunity to give a presentation. The lightning round presentations will be held in National Harbor 12-13 on Thursday and Friday from 12:00 PM to 1:00 PM. You can sign up for a talk at the conference registration desk and the presentations will be scheduled on a first-come, first-served basis – so don't delay!

Welcome to the 2011 VIVO Conference!
