

Announcing the first annual

National VIVO Conference: Enabling National Networking of Scientists August 12-13, 2010 New York Hall of Science

The first annual National VIVO Conference, Enabling National Networking of Scientists, will bring together scientists, developers, publishers, funding agencies, research officers, students and those supporting the development of team science. This two day conference will begin with workshops and tutorials for those new to VIVO, those implementing VIVO at their institutions, and those wishing to develop applications using VIVO. Invited speakers will present regarding the Semantic Web, Linked Open Data and the role of VIVO in support of team science. Panelists will discuss adoption and implementation findings. Feedback sessions will engage participants in requirements gathering and brainstorming regarding future network services. Presenters will discuss mapping, social networking, crowd sourcing, support for societies and other national network applications. Learn more at <http://vivoweb.org/conference>.

Registration, Hotel and Travel

Registration, hotel and travel information is available on the conference web site. The New York Hall of Science is located near both LaGuardia Airport and John F. Kennedy International Airport. Several hotels are located close to the Hall and conference hotel rates are available.

Call for Papers

Interested in presenting a paper, workshop, poster or panel? The call for papers is now open at the conference web site. The conference will use a variety of formats to encourage participation and collaboration.

Call for Applications

Have an idea for an application using open linked data from VIVO? Submit your application. Winners will be announced at the conference. See the conference web site for details.

About the New York Hall of Science

The New York Hall of Science (www.nysci.org) is one of the premier science museums in the United States. Located in Flushing Meadows Park, the Museum hosts over 400 exhibits and a wide variety of events. Minutes from Manhattan by train or taxi and conveniently served by LaGuardia and John F. Kennedy airports, the New York Hall of Science provides an intriguing setting for the first annual National VIVO conference.

About VIVO

VIVO is an open source, open ontology, research discovery platform for hosting information about scientists, their interests, activities, and accomplishments. VIVO supports open development and integration of science through simple, standard semantic web technologies. Learn more at vivoweb.org
